

11/23/09 Webinar: The GPS of Performance Reporting

Join us for our next Webinar!

The GPS of Performance Reporting

November 23, 2009 @ 2:00pm EST

Keeping score or measuring performance can have a significant impact on the financial results of a company. Like a GPS navigation system, the data in Dynamics SL can show you where you are, where you are going and what is needed to get to your destination. In this webinar, learn how to use Excel with MS Dynamics SL data to effectively communicate performance throughout various levels of the organization. Several examples of measurements will be presented for discussion, along with tips on how and where to get the data. This webinar is presented by Roger Tjoelker, the CFO of Feyen Zylstra LLC in Grand Rapids, MI.
